EDUCATION

İzmir Institute of Technology

B.S. Computer Engineering

Oct 2020 - Jun 2025

Current GPA: 3.28/4.0

RELEVANT COURSES

Object-Oriented Programming, Heterogeneous Parallel Programming, Calculus, Data Structures & Algorithms, Linear Algebra, Probability & Statistics, Relational Databases, Project Management, Fuzzy Logic Systems

SKILLS

English - B2

Languages: Python, Java, C, CUDA, SQL, JavaScript, HTML/CSS

Tools: Git/GitHub, Unix Shell, VS Code, Apex Oracle

Frameworks: TensorFlow

Libraries: pandas, NumPy, Matplotlib

CERTIFICATES

1. [Fundamentals of Accelerated Computing with CUDA C/C++ -NVIDIA](#)
2. [Accelerating CUDA C++ Applications with Concurrent Streams -NVIDIA](#)
3. [Scaling Workloads Across Multiple GPUs with CUDA C++ -NVIDIA](#)
4. [Supervised Machine Learning: Regression and Classification -Coursera](#)

ABOUT ME

I am an undergraduate student currently in the 3rd year of a four-year B.Sc. degree in Computer Engineering at IZTECH. Since I was little, I have been interested in mathematics and what goes on behind the programs running on computers, so I turned to the field of Computer Engineering. Since we have two group assignment projects on web development this semester, I started working on the back-end. Apart from my course, I am interested in Machine Learning. Currently, I am taking a course named Machine Learning Specialization which consists of three courses from Coursera. On the other hand, I am also taking one more course, which is about again Machine Learning, from Udemy to improve myself in practice. Additionally, I love playing guitar and doing sports such as swimming, kickboxing, and fitness.
